

PURECLEANSE™ ORAL

PURE HYPOCHLOROUS (HOCl) ORAL RINSE

A Cleansing Oral Rinse Oral Hygiene Excellence

PureCleanse™ Oral is a pure, stable hypochlorous acid (HOCl) oral rinsing solution for all ages in a non-toxic, powerful, and easy-to-use formula, making it perfect for daily oral hygiene routines and specialized oral cleansing applications.

- ▷ Kills bacteria that can cause bad breath
- ▷ Cleanses, brightens and reduces buildup
- ▷ Promotes excellent mouth and gum health

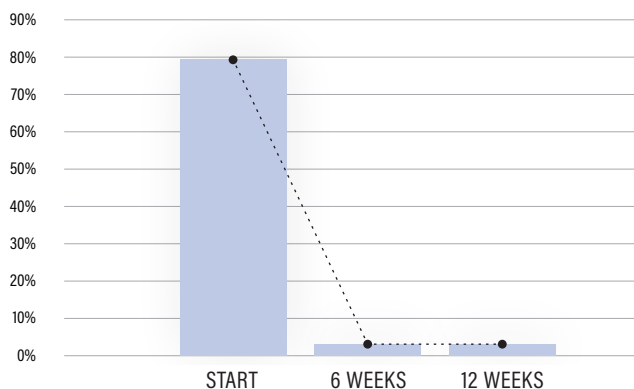

What is Hypochlorous Acid (HOCl)?

As the "First Responder" of our innate immune system and produced by our white blood cells, hypochlorous acid (HOCl) is our first line of defence against infection and inflammation.

BiomIQ produces the only pure and stable HOCl solution manufactured in Canada, making PureCleanse™ Oral an innovative solution you can trust.

Percent of Teeth with Gum Bleeding Points When Rinsing With PureCleanse™ Oral*

When Rinsing Twice Per Day

Proudly manufactured in Canada.

Advanced Oral Health Without Compromise.

How does PureCleanse™ Oral compare? The choice is clear.

	Traditional Mouthwashes	PURECLEANSE ORAL
Elimination of Biofilm	✗	✓ Effectively breaks down biofilm structures and kills bacteria
Non-Cytotoxic	✗	✓ Uses pure hypochlorous acid which is gentle, non-toxic, pH balanced, and non-irritating
Pleasant Taste & Experience	✗	✓ Mild, pleasant taste which quickly dissipates after use, causes no discomfort
Freshness That Lasts	✗	✓ Provides long-lasting freshness by addressing root cause(s) of bad breath
Gentle on Sensitive Teeth & Tissue	✗	✓ Gentle enough for sensitive mouths and oral tissues
Environmental & Health Concerns	✗	✓ Hypochlorous acid is 100% natural and harmless to the natural environment
